UNITE TO CURE

A GLOBAL HEALTH CARE INITIATIVE

HOW SCIENCE, TECHNOLOGY
AND 21ST CENTURY MEDICINE
WILL IMPACT CULTURE AND SOCIETY

FOURTH INTERNATIONAL VATICAN CONFERENCE

VATICAN CITY | APRIL 26-28, 2018

#UNITETOCURE

THE CONFERENCE

Created by Vatican's Pontifical Council for Culture, the Stem for Life Foundation, a Cura Foundation, and STOQ Foundation, the **Fourth International Vatican Conference** will continue the global health care movement that was started eight years ago. We will unite the world's thought leaders across all disciplines to engage in a powerful conversation about the future of medicine. We will have media moderators guide the discussion and drive the conversation forward. We will raise awareness of scientific advancements and inspire hope for patients and families around the world. We will use this forum to collaborate and educate the public in an effort to Prevent, Repair, Cure and Prepare for the Future!

Our mission is to convene leading decision makers in health care, business, media, medicine, advocacy and faith to collaborate and improve access to health care, increase investment in research and innovation, encourage multidisciplinary collaboration and help grow healthy communities through prevention, education and better access to health care.

CONFERENCE GOALS

- **Continue** the global **Unite to Cure** campaign to improve human health and create a forum for collaboration to advance cures.
- **Unite people without prejudice** to stimulate an open dialogue and catalyze an interdisciplinary approach to tackle major health care challenges around the globe.
- **Increase awareness**, educate the public on scientific advancements and inspire the next generation.
- **Discuss** the effect of emerging technologies and their anthropological, ethical, cultural, religious and societal implications.
- **Lead the conversation** about personalized medicine, regenerative technologies, CRISPR and other innovations and discuss their impacts on the environment, human health, culture and society.
- **Translate** complex science into accessible language to catalyze the conversation.
- **Reduce** the leading causes of cancer in our children, such as smoking, obesity and HPV.
- **Increase** the number of registrants in the Be The Match® bone marrow transplantation program.
- **Inspire** people to help one another and share their stories of hope.

CO-HOST

The Pontifical Council for Culture traces its origins to the Second Vatican Council and its openness to contemporary culture. In its Pastoral Constitution, *Gaudium et Spes*, the Council Fathers expressed the needs of the Church to continually place itself at the forefront of the cultural needs of the world. It was a period of history where a new humanism was arising and the Church, faithful to its own traditions, was aware of the universality of its mission, entering into communion with the different forms of culture, a communion that would enrich the Church as much as the cultures. The Pontifical Council for Culture is committed to the dialogue with many realities in the relationship between culture and faith.

CO-HOST

The Cura Foundation leads a major global health movement with the passionate purpose to improve human health. Cura unites public and private sectors, partnering with doctors, patients, business leaders, philanthropists and thought leaders to collaborate and create breakthroughs around the world. The foundation drives change by raising awareness of scientific advancements in genomics, emerging technologies and big data to usher in the future of medicine. Cura helps people live longer, better lives free from suffering. The Cura Foundation is a nonsectarian, nonpartisan, public and tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code.
